

Lifter

Deftones

Watch me with your eyes
Been giving God a bed of fire
I want to be just like you
Then I'd be cool maybe not
But we lift our eyes
Big surprise, kiss me goodbye, whore

Without you being here
I been giving fear a bit more
I wish I could feel like you
When I fuck like you a bit sore
But we lift our eyes
Big surprise, kiss me goodbye

And then you mourn what you've worked for
Every knuckle wipe into her
I know you fucking monster
I will never get what I want

Inside of her

This gift of mine
Resing, restring, unwind

My eyes are closed

A part of me gets pissed
A part of me gets sore
A part of me gets pissed
A part of me gets sore
A part of me gets pissed
A part of me gets sore

And then you mourn what you work for
Every knuckle wiped into her
I know I'm a fucking monster
I will never get what I want

Inside of her

A part of me gets sick
A part of me gets sore
(12x)

A part of me gets

Inside of her

A part of me gets sore
A part of me gets sick
(3x)

A part of me gets so fucking sick
