

# Phantom Bride

Deftones

Inside of this hole you create  
You hide from yourself  
You separate every belief  
That is true and you spend your life  
Attached to this poison  
You won't feel anything out of the rain  
and it's true that

You spend your life trapped in this void  
Where you will stay away

Get rid of this thought of you rotting in  
The same cold space  
You don't want to feel anything new  
You decided to spend your life  
Safe from emotion  
This way you'll never be harmed again  
Or confused now

You spend your life trapped in this void  
Where you will stay away  
You waste your life relaxed in your void  
and you will drain all of you

You spend your life sat in your void  
Where you will stay away  
You waste your life relaxed in your void  
Where you will stay always

You spend your life (away)  
Trapped in your void  
Where you will stay always

Waste your life (away)  
Attached to this Poison (away)  
You congratulate all of you
