You cannot face the crowd  
All by yourself  
Embrace the power we have...

Brace your eyes slowly  
Place your faith into me  
Your body aches should be drained out of your life slowly

Take me in  
Face the lies  
Free yourself and writhe in them

Some say had dreamed  
What i wake moaning  
This body aches should be drained of you tonight slowly

Take me in  
Face the lies  
Free yourself and writhe in them

Take me in  
Face the crowd  
Let yourself just writhe in them

You cannot face the crowd  
All by yourself  
Embrace the power we have  
The record's ours to break  
The more we build  
And the crowd goes wild  
Goes wild

Take me in  
Face the lies  
Free yourself and writhe in them

Take me in  
Face the crowd  
Let yourself just writhe in them  
Wirthe in them  
Wirthe in them...

Whooo!

You cannot face the crowd  
All by yourself  
Embrace the power we have  
The record's ours to break  
And the more we build  
The crowd goes wild  
Goes wild
