

All Is Gone

Degradead

Don't try to calm down, you're worse then ever
You deserve to die, with a promising smile

Calm down

We have a reason, to take you away
Into a vanishing light, welcome to darkness

All is gone, we're trapped forever
All is gone

We travel down , it's not a distance to crawl
Stand up for your actions, never to cold
We breed a monster

You are the main guest, in a house of evil
Get overrun, by the naked souls

Calm down

We have a reason, to take you away
Into a vanishing light, welcome to darkness

All is gone, we're trapped forever
All is gone

We travel down, it's not a distance to crawl
Stand up for your actions, never to cold
We breed a monster

You're not alone, not anymore

Down, its not a distance to crawl
Stand up for your actions, never to cold
We breed a monster
