

# Everlasting Hatred

Degradead

Hating to much, the world's going under  
Sinking lowered level, we're bleeding out

Fading away, you've got to pay your respect

Doomed, to begin with  
Fail, for eternity  
I, am the everlasting hatred

Save yourself from others, it's gone completely mad  
Figure out the anger, your throwing stone in a glasshouse

Fading away, you've got to pay your respect

Doomed, to begin with  
Fail, for eternity  
I, am the everlasting hatred

Front row seat, to your doom  
The endless pit, drowns all our hope

Doomed, to begin with  
Fail, for eternity  
I, am the everlasting hatred

It's like murder, with out no crime  
No one, sent to the jury

Killing, for all of time, we must pay our respect or we  
all die now
