

## Near The End

Degradead

Bind yourself to me, can you spot the lies  
Take your final breath, we're out of time

Come down now, this is your destiny  
Look around, this is the end

You are near the end  
We have been lost before, we try to fight some more  
Now take your step through the door and go for

The unknown is the fear, that's eating away on your  
comfort  
Know that it's clear, must be, there are no more  
regrets

Come down now, this is your destiny  
Look around, this is the end

You are near the end  
We have been lost before, we try to fight some more  
Now take your step through the door and go for the  
unknown

Hold on, the light is coming  
Get used to a different setting  
Fight on, keep on pushing  
Yourself to a higher ground

Come down now, this is your destiny  
Look around, this is the end

You are near the end  
We have been lost before, we try to fight some more  
Now take your step through the door and go for the  
unknown

Just go, don't hesitate, just go  
There's no way of stopping your fate
