

## Wake the Storm

Degradead

Victim, body, put to everlasting sleep  
Voices, never, never fail to earn it's keep

Rising, over, storming in you feel so bold  
Feeding, frenzy, bloody hands are running cold

When I kill

I'm losing it all, losing the fading call  
A favour, struggle to keep your calm

Remember, never to lose it all  
Wake the storm, ready to fall

Dream of, murder, scary thoughts are closing in  
See no, further, feel the urge, commit the sin

Scream out, the pain, it's to hard to feel for you  
Catch just, one look, realize my life is through

When I kill

I'm losing it all, losing the fading call  
A favour, struggle to keep your calm

Remember, never to lose it all  
Wake the storm, ready to fall

Remorse, no more  
Remorse, no more
