

Day of Darkness

Deicide

Death is now the day
When the fires fall from the sky
Let us pray
When the darkness falls we will die
Endless pain
Crucifying death from above
We must pay

Day of darkness

Question our fate when day of darkness
Forces of evil now upon us
Forces of evil on display
Forces of holy brought this day

Death is now the day
When the reaper calls for the dead
We'll be saved
In this world of desecrating minds
We must pay
Crucifying world of evil death
Let us pray

Day of darkness
