

In Hell I Burn

Deicide

Life has no meaning, unyielding obsession
Grasping at strings of a life I once knew
Death by my own hands, achieving objective
Blade to my throat, I calmly greet death

In Hell I burn, my faith is sustained
In Hell I burn again
In Hell I burn, no questions remain
In Hell I burn for Satan

Opened eyes dream, unheavenly torture
Raping the world of the dead
Burning in Hell and viewing the unseen
Satisfied feasting of flesh

In Hell I burn, my faith is sustained
In Hell I burn again
In Hell I burn, no questions remain
In Hell I burn for Satan

Master it's true
My promise I have kept
Fulfillment of the prophecies
The deity's dead
