Missions of death, spread upon earth

Preach in disguise of a god and his church

No compromise, believe or you die, pray unto him and to follow his lies

Buy into christ, he waits on you dead, sin for the father again and again

Falter, diminished, salvation, enslaved, to hell with god and to all that he gave

Raise our glass to blasphemy and piss upon the altar Servants of the lord above, ignore the new world order Conquer us, unleash damnation, go from here into temptation Live in fear, for he forsakes you, lies endeared for all creation

Festering death, forsaken my soul, evil so ancient from elders of old

Waging this world with its book of disgust, casting its will up on all who will trust

Protests, won't leave them to be, spoiled by god and his beautiful scheme

Satan insists on his being, upon the earth and emplaced oversee ing

Raise our glass to blasphemy and piss upon the altar Servants of the lord above, ignore the new world order Conquer us, unleash damnation, go from here into temptation Live in fear and no salvation, lies endeared for all creation To hell with god, you're damned to the edge of riddance To hell with god, you don't want to be forgiven Put aside your crucifix

To hell with god, him and his son, do not believe the likes of a thief

To hell with god

To hell with god

To hell with god
