

Forever And A Day

Deine Lakaien

Wherever you have gone to
I cannot say
Wherever I belong to
Too far away

These eyes became
A bottomless well
All my tears in vain
You did not tell....

Lost beyond the stars
My love has gone forever and ever
All in this world I know,
My love will last forever and a day

Where you have flown to
I cannot say
And no more songs from the blue
Your voice trailed away

As I stroked your brow
For the very last time
As cold as snow
Sweet love of mine

Lost beyond the stars
My love has gone forever and ever
All in this world I know,
My love will last forever and a day

when shall we meet again
I can't foresee
That silenced path, till then
Where you will be

Beyond the furthest pier
Where seagulls wail
From the shimmering stratospheres
You will not tell

I'm singing to the stars:
"my love will last forever and ever"
singing to the stars:
"my love will last forever and a day"

Lost beyond the stars
My love has gone forever and ever
All in this world I know,
My love will last forever and a day
