

# One Night

Deine Lakaïen

Times I recall In fleeting colours In missing hours On days that fall Like leaves in autumn And blown around And left unspoken

Times I recall That made me restless And anxious wandering And words that fall Into the deepness Of my yearning And left unsaid

One night one night I had a dream A wave came floating Like a gleam One day one day All I've seen will come true 'cause night and day I'm in love with you

Times I recall Close to your breath The sweet caress The joy that falls Into the blindness Of my heart And left unspoken

Times I recall Few moments of care Maybe unaware And I did not fall Remained in elation And left my darkness And left unsaid

One night one night I had a dream A wave came floating Like a gleam One day one day All I've seen will come true 'cause night and day I'm in love with you
