

## Where You Are

Deine Lakaian

i did join the race  
hunting for success  
selling dreams was all i knew  
for the rising stars and i did work hard/my important part  
all my feelings are with you

where i am  
where you are

and i changed my life  
and i moved outside  
where the water is clear and pure  
where the lands are wide  
where the air is bright  
all my feelings are with you

where i am  
where you are

and i walk up the hill  
and i can't stand still  
'till the day of our last rendez-vous  
and the leaves turn red  
and i bow my head  
all my feelings are with you

where i am  
where you are
