

## Divine Defilement

Deivos

Behold the glorious coming of the christ  
Blessed virgin blood drenched Mary's hymen tearing  
Nazarene son of got into the world appearing

Jackals fuck under the dawning moon  
Once estranged from stains of sin  
The blessed lady lies now defiled  
Deflorated from inside by the one you praise  
Jesus christ the king of slaves the wicked seed of god

Two millennius on and our daggers still crave  
To chant the prayer of hate  
Hail the triumph hail the conquest  
Slay the defeated enslave the conqueared

The sealed fountain of the holy ghost wept  
Her birth pains like death throes of the world  
The usurper of truth is born intact in his lies

Dead angels hit the ground as she screamed  
Releasing the godly vermin  
From her pestilennt worm infested holy cunt  
Deflorated from inside by the one you praise  
Jesus christ the king of slaves the rotten seed of god

Two millennius on and our deggers crave  
To chant the prayer of hate

Fools of slavish devotion can you now see your god?  
His body desecrated dragged by dogs of the wild
