

# Make It Always Be Too Late

Del Amitri

What I want is everything to clear  
So let the clocks be wrong  
Let the evening be longer, let me drown in here

'Cos what I want gets clouded by the sun  
I can't see beyond  
The petty things that living here brings everyone

So get lost with me  
Let the whole world wait  
Make it always be too late

What I want is right before my eyes  
So set me up a drink  
Pull the shutters down on all those prying satellites

'Cos what I want is everything to clear  
So if you stop your watch  
You might stop the morning's cruel hammer falling here

So get lost with me  
Let the whole world wait  
Make it always be too late
