

# One Step At A Time

Del Amitri

Feel so lucky, feel so free  
I got one hand around your waist,  
And it feels real good to me

You've got the motion, and you've got me  
And the music's slow and pretty  
And we step so silently

But I don't know, where we're going  
And I don't know what we'll find  
But if the music's right, we'll follow tide  
Takin' one step at a time

Take it easy, take it sweet  
Can you feel our troubles fading  
Like the graffiti down our street

So let the traffic take the strain  
Let's you and I just listen  
To the blood run through our veins

Cause' I don't know where we're going  
And I don't know what we'll find  
But if the flow is strong, we'll float along  
Takin' one step at a time

And if it should fall this very day  
That all we ever had was just a stupid act  
Don't try to say, "baby it's fine"  
Just let me watch you walk away  
Honey one step at a time

Cause' I don't know where we're going  
And I don't know what we'll find  
But if the music's right, we'll follow tide  
And if the light is lit, we'll stick within  
If the stars are shining, we'll keep on climbin'  
One step at a time
