

# It's Just The Night

Del McCoury

Daylight fades the evening darkness falls  
Tree's look just creatures  
In shadows on the wall  
I can see how it might scare  
A woman who's out alone  
Don't you worry none  
Cause I'd walk you home

It may seem a little spooky  
But it's all right  
Don't you worry now  
It's just the night  
It's just the night

Bats come out  
When the moon is in the sky  
You hear a hoot owl in the distance  
And you tremble inside  
When the moon is full  
Some say it's a sign from hell  
You could wind up a victim  
Under some kind of evil spell

It may seem a little spooky  
But it's all right  
Don't you worry now  
It's just the night  
It's just the night

Wicked wind a blowin'  
Makes the shadows dance around  
The cracks in the sidewalk  
Look like snakes on the ground  
You see lightning flash  
And you hea some thunder roar  
You walk a little bit faster  
Trying to make it to your door

Chorus:

It may seem a little spooky  
But it's all right  
Don't u worry now  
It's just the night  
It's just the night
