

Calling Out My Name

Del Shannon

There's trouble in paradise
With her love you pay such a price
She must be all alone again she's calling for me

She doesn't turn me all the time
When I need her she's got a busy line
She must be all alone again she's calling for me
What else could it be

I know she's
She's calling out my name
I know she's
She's never gonna change her ways
She's always treat me the same
And she knows it's true
What am I gonna do

I could go so far away
But I know I couldn't stay
Knowing that she's all alone again
Calling for me

She's dangerous to my heart
I shoulda known it from the start
She must be all alone again she's calling for me
What else could it be

I know she's...
And there is nothing I can do
I know she is...
