

# Babylon

Delain

Easy now  
We don't need this  
Take a breath  
And believe it's  
Just a phase  
That we're going through  
I try to shout  
But my words go in and out  
Did you even hear me say  
That I still love you

We are losing our way  
Can't you hear what I say  
Like a child, calling out  
In the night

We're lost in Babylon, Babylon  
Time is slipping away  
Holding on, it won't be long  
Until the dawn of the day  
Lost in Babylon, Babylon  
Still we need to believe  
When love is gone  
We're moving on  
Not a long, long way from home

Back to back  
We're too proud to face the facts  
Though we sleep in the same bed  
There's no coming though  
Face to face  
I can see you through a maze  
Of the words we spoke in vain

You know this will go out of hand  
If we don't understand  
This confusion of tongue  
Feels so wrong

We're lost in Babylon, Babylon  
Time is slipping away  
Holding on, it won't be long  
Until the dawn of the day  
Lost in Babylon, Babylon  
Still we need to believe  
When love is gone  
We're moving on  
Not a long, long way from home  
Lost in Babylon

There's a right to your wrongs  
There's a truth in my lies  
I can't hear from your words  
But I see in your eyes

We're lost in Babylon...
