

## Breathe On Me

Delain

A stranger's face that I have never seen  
but on photographs  
but on tv screens  
Your songs of romance ringing in my ear  
you are all I see  
You are all I hear  
Your eyes met mine  
Just one split second and I knew tonight  
Yes you can be my solitary man  
I'll be your girl named Joy  
Yes I'll be all you need and more

Breathe on me, breathe on me  
Light my way, bring me back to life  
Breathe on me, breathe on me  
Fill me up, make me feel alive  
My heart is black my soul is bleeding  
Give me something to believe in  
Breathe on me  
Tonight

Trying to stay cool as I'm approaching you  
hitching up my skirt  
as I start to flirt  
My nervous is breathing when I'm close to you  
I can't help but being  
breathless over you  
Who needs the stars  
You are my only star tonight  
Who needs the moon  
When you are my loverman  
Until the bitter end  
I'll do all I can and more

And call me the wild rose
