Your face, my face You breathe, I breathe You fail, I fake I pray, I pray...

You lose, I lose, You bruise, I bruise I hunt, you stay My prey, My prey

My Masquerade
If you're not afraid
To take a step into my world

A ball, tonight Cover your eyes By touch and taste We'll find our way

Your secrets deep Yes I will keep I hunt, you stay My prey, my prey

My Masquerade
If you're not afraid
To take a step into my world

Take of your mask
And you will see
The freak in you
The freak in me
Tonight we hide
From judging eyes
We'll dance until the sunrise
