Sleepwalkers Dream

Delain

Close your eyes
For the night is falling
Fear no dark
For it's warm and safe
And looks familiar
As it comes approaching
Come with me
And I will take you

A world beyond your sleep Beyond what's real An in safety hidden sphere Away from our daily reality Truth lies out there (2x)

As the innocent
Lay their heads down
As the night chants it's
Luring call
Cross the borders of
Sense and foresight
Come with me
And I will take you
you don't have to be afraid

A tear is only water A sigh is only air Whenever you feel haunted The truth lies out there (2x)

A world beyond your sleep Beyond what's real An in safety hidden sphere Away from our daily reality Truth lies out there
