

## Stay Forever

Delain

Silence in the living room  
Hours feel like days  
Silence when I speak to you  
You're a thousands miles away  
Crying for real oh yes you're worth the prize  
Because when my mind gets clouded  
I forget about our fights

R: Stay forever, it's never again  
My words have been spoken  
It will come to an end  
Stay forever, it's never again  
My words have been spoken  
It will come to an end

I'll afficche your energy  
Running through my veins  
Chemical the love I feel  
For faces without name  
Crying for real  
Yes you're worth the prize  
Because when my mind gets clouded  
I forget about our fights

R:

This empty house is not a home  
Find the will to stand alone  
Without your armour  
Flesh and blood have turn to stone  
Find the will to stand alone  
Too late to turn away

R:
