

Silence

Delays

If all these falling stars,
Settle where you are
They'd blind me to your steps
And I've not found you yet

Coz keeping up with you
Was more than I could do
But now I'm off the pace,
You know I've got a lot to say

And if I could've said much more
With silence, silence says it all
And if I could've said much more
With silence, silence says it all

If all these speeding cars,
Let you pass unharmed
Then I should walk away
You know I've got a lot to say

And if I could've said much more
With silence, silence says it all
And if I could've said much more
With silence, silence says it all, it all

But if I could've made you tick
Like clockwork
Clockwork bring you home
And if I could've said much more
With silence, silence says it all...
Silence says it all...
