

Just breathe; we'll make a picture not a scene,  
'Cos you don't have to preach to me,  
There's not a note you cannot sing,

Unsung, you'll be a ghost before too long,  
You'll get your moment in the sun,  
Under the moon, under the gun

There's a hole carved in me you can see straight through,  
Fill it in, fill it in, 'cos it's shaped like you,  
There's a hole carved in me you can see straight through,  
Fill it in, fill it in, 'cos it's shaped like you...

You are the star performer,  
You walk upon the stage,  
You are the star performer,  
My glorious crusade,

Just try a little longing in your life,  
We'll be like soldiers in disguise,  
We're on a mission for your smile,

There's a hole carved in me you can see straight through,  
Fill it in, fill it in, 'cos it's shaped like you,  
There's a hole carved in me you can see straight through,  
Fill it in, fill it in, 'cos it's shaped like you...

You are the star performer,  
You walk upon the stage,  
You are the star performer,  
My glorious crusade,

Unsung, unsung...

You are the star performer,  
You walk upon the stage,  
You are the star performer,  
My glorious crusade,
