

## Go On

Delbert McClinton

I said Lord up in Heaven,  
Honey, what's been wrong with you  
Just give me one good reason  
For what we been goin' through  
Go on,  
'Cause you brought me to my knees, go on,  
Do just what you please  
If you want to leave our happy home, then, baby, go on

Are you sure you still love me  
All you seem to want to do is fight  
Always tellin' me  
I just can't do anything right  
So you better go on,  
'Cause you brought me to my knees  
Go on,  
If you do just what you please  
You're gonna leave our happy home, then, baby, go on

Now I've run out of patience and the chance is slim  
When I walked around the corner saw you kissin' on him  
You said it's just a long lost friend, if you please  
I better take him home now, so, uh, darling, where's  
the keys  
You better go on  
You got me on knees, go on  
You do just what you please  
You wanna lose our happy home, then, baby, go on

Go on  
Go on  
Just go on  
Baby, go on  
If you wanna leave our happy home, then, baby, go on
