I Had A Real Good Time

Delbert McClinton

Well, I love this life but it's doing me in Just in case I don't ever see you again I had a real good time, I love the wine The women and song and the carryin' on I had a real good time

I been around the block a time or two 'Round every corner there's somethin' new I had a real good time, I just love the wine I love the women and song and the carryin' on I had a real good time

There's a big ol' world of opportunity For a man that sings the blues You learn a whole lot more about life From the things you're not supposed to do

I got a way with women keeps 'em coming around That's the kind of thing you don't turn down I had a real good time, I love the wine The women and song and the carryin' on I had a real good time
