

## Object Of My Affection

Delbert McClinton

You bein' the object of my affection  
After many long years and a wide selection  
I'm gonna give all my love to you  
Woman, I want you to love me, too

I'm gonna love you like a man possessed  
Anybody eles really loves you gonna have to be second best  
Honey, I love you  
Woman, I want you to love me, too

I can't sleep at night because I need you  
My head feels just like jelly when you talk  
I can't make my friends believe me  
When I try 'em 'bout the way you walk

I'm gonna love you like a man possessed  
Anybody eles really loves you gonna have to be second best  
Honey, I love you  
Woman, I want you to love me, too

I can't sleep at night because I need you  
My head feels just like jelly when you talk  
I can't make my friends believe me  
When I try 'em 'bout the way you walk

You bein' the object of my affection  
After many long years and a wide selection  
I'm gonna give all my love to you  
Woman, I want you to love me, too  
I'm gonna give my love to you  
Woman, I want you to love me, too  
I'm gonna give my love to you  
Woman, I want you to love me, too  
I'm gonna give my love to you  
Woman, I want you to love me, too
