

Special Love Song

Delbert McClinton

Here it is, baby
Your own special love song
All about what it's like
Just being with you

Like touching your lips
With the tips of my fingers
Looking up close
In your big eyes of blue

Now it's been a long time
Since I heard a love song
One that says
What I want to say to you

Now, I wrote one down
It may sound mushy
It may sound mushy
Oh, but, baby, it's true

Here it is baby
Your own special love song
All about what it's like
Being with you

Like touchin' your lips
With the tips of my fingers
Looking up close
In your big eyes of blue
