You Gonna Miss Me

Delbert McClinton

You gonna miss me
all through the lonely night
You gonna miss me
all through the day
You may wonder for a long time
Oh, why, did you drive your man away.

You packed my bags, and tell me I'm leavin' Say I've laid around too long You givin' up on love now darlin' 'Cause we both been doing wrong.

But you gonna miss me, babe all through the lonely nights
You gonna miss me
all through the day
You may wonder for a long time
Oh why, did you drive your man away.
Oh why, did you drive your man away.

You wanna change the situation Tell me I'll just have to go But that won't make it better baby That lonely feelin' gonna get so cold.

You gonna miss me all through the lonely nights
You gonna miss me all through the day
You may wonder for a long time
Oh why, did you drive your man away.
