

## Inner Sanctum

Delerium

Infinity, infinity?  
Sky cold, skin blue, when I wake

So swim into essential, you've swam a thousand voids  
Why is eternity forever? Why is eternity forever?  
Skin screams bear me again, inner sanctum?

We watch from dry land  
While waves destroy our theories  
So swim into essential, you've swam a thousand voids  
Why is eternity forever? the horizon deceives  
Some say 'their ships above sea' sailing on winds of belief  
Why waves destroy our theories bear me again  
Sky cold, skin blue, when I wake to worship water

Sky cold, skin blue, when I wake, infinity waving  
Sky cold, skin blue, when I wake, infinity waving
