

## You & I (slow Rise Mix)

Delerium

Up from my back door  
I can see  
A hand span of eternity  
And up through the buildings  
An indifferent sky  
Is heavy with silence like You and I

Why do You and I  
Make each other cry  
When we both know  
(Yes we both know)  
We love each other so

Up from my back door  
The stars look so at home  
Meanwhile, I feel alone  
Whenever we fight baby  
We both lose sight  
Of You and I

Why do You and I  
Make each other cry  
When we both know  
(Yes we both know)  
We love each other so

Oh baby  
Oh you have to hear me  
I don't want to fight with you  
I want to make things right for you  
Because I care about you

Why do You and I  
Oh baby why do we fight...  
When we both know  
(Yes we both know)  
We love each other so
