With You

Ooh ooh ooh just another day When being with you shines a light as I go my way Oh ooh ooh just another day Another moment you and I can take it all the way And it's OK cos

I'm with you, I'm with you, only you To steal another day, is all that's on my mind And I'm staying here to find that I'm with you

Ooh ooh ooh nothing left to say When my heart it burns with holy fire don't get in my way Ooh ooh ooh give it all away Got to keep these clean hands dirty if I'm gonna to stay awake But it's OK

You never let me go You never let me fall I know you're in this pain And when I've got it all And I'm clinging on to you 'Cos it's all that we can do 'Cos knowing you is beautiful
