

Eustace Street

Delorentos

Take a trip down Eustace Street
and we've already gone too far
around about the place where we used to meet
and I cannot go back there

It's all about the time it took to break a man
and I can't get away
it's never been the time it took to change your mind
and I can't get away

Take take take anything but leave my heart alone
take take take take anything but leave my heart alone

It's easy to get caught out and let the bitter lie down
it's easy to get caught... out

It's all about the time it took to break a man
and I can't get away
it's never been the time it took to change your mind
and I can't get away

Take take take anything but leave my heart alone
take take take take anything but leave my heart alone

And I know you've been talking to him
and it's all coming out now
and I know what lies in the minds of men
and it's all coming out now

It's all about the time it took to break a man
(and its all coming out now)
it's never been the time it took to change your mind
(and it's all coming out now)
take take take anything
and it's all coming out now
take take take anything
and it's all coming out now
