

# Waiting

Delorentos

Waiting, all I am is waiting  
hoping that there's something  
or someone to believe in.

I never had a problem  
I've always had a system  
hoping that the circumstance that made me  
would never be a lie.

And you're the only reason that I stayed so long this time  
and any other feeling and I'd be long gone.

Heart is broken like a promise  
you treat me like a doctor  
and hold me like a child.

I never met a lover  
who didn't want another.  
Hoping that the innocence that left me  
could never be denied.

and you're the only reason that I stayed so long this time  
and any other feeling and I'd be long gone.

I hung around, I was waiting for a sign  
and you're the only reason that I stayed so long this time.

Just so you know I never wanted all this.  
Just so you know I never wanted all this.  
Just so you know I never wanted all this.  
Just so you know I never wanted all this.

and you're the only reason that I stayed so long this time  
and any other feeling and I'd be long gone

I hung around, I was waiting for a sign  
and you're the only reason that I stayed so long this time.
