

This Old Heart Of Mine

Delroy Wilson

This old heart of mine
It broke a thousand times
Each night me break away
I feel you're going to stay

Lonely nights has come
Many reads assumes(?)
Bring it me back again
Hurting me more and more

Maybe it's not mistake
To show this love I feel inside
Each day that passes by
You got me never know it
If I've got it all by myself

I love you, yes I do
This old heart
Darling
Still waits for you

I love you, yes I do
This old heart
This old heart
Oh baby

Mmm...
Oh baby

Maybe it's not mistake
To show this love I really feel inside, oh baby
Each day that passes by
You got me never know it
If I've got it all by myself

I love you, yes I do
This old heart
Darling, darling
Still waits for you

I said I love you, yes I do
This old heart
Whoa baby
Waits for you
This old heart of mine, baby
Really loves you...
