

Angels in the Room

Delta Goodrem

I know there's something here
There's more than meets the eye
More strange more beautiful
Than these words can describe

Don't know how I got here
The past has come and gone
I just know I have found
The place my heart belongs

And I want to stay
I feel safe here in your light
This must be what heaven's like
Must be angel's in the room tonight

So much here in this world
I'll never understand
I'll have to learn to trust
I'll do the best I can

All the mistakes I've made
The wrong turns on this road
Have only led me to your arms
And all I know

I want to stay
I feel safe in your light
This must be what heaven's like
Must be angels in the room
Oh can you feel it too
Must be angels in the room tonight
