

# Brave Face

Delta Goodrem

Put your brave face on  
The one you wore when you stole my heart  
Won't you hold my hand  
We'll jump together into anything that could  
Possibly happen

'cause we're still so young  
Ask me to dance in this hotel room  
Then let's get out of here  
And hit the airport with nothing but a carry  
on between us

You take my over analyse away  
It's you and me against the world today

Feels like I'm running  
With my high heels on  
And they're chasing us waiting  
For it to all go wrong  
You're my umbrella against their  
Sticks and stones  
As long as we keep smiling  
They'll never know  
Put your brave face on  
Put your brave face on

It's clear blue skies  
Flying 30,000 feet above  
No one can touch us  
'cause we're so in love  
Look into my eyes  
Meet me there don't look down

Feels like I'm running  
With my high heels on  
And they're chasing us waiting  
For it to all go wrong  
You're my umbrella against their  
Sticks and stones  
As long as we keep smiling  
They'll never know  
Put your brave face on  
Put your brave face on

You take my over anaylse away  
It's you and me  
Against the world today

Feels like I'm running  
With my high heels on  
And they're chasing us waiting  
For it to all go wrong  
You're my umbrella against their  
Sticks and stones  
As long as we keep smiling  
They'll never know  
Put your brave face on

Put your brave face on
