

# Hear Me Calling

Delta Goodrem

Is calling, patience falling  
Distant dreams and thoughts of you  
Time is wasted in far off places  
Wish I could fly and be with you

No time for sentimental thoughts in my head  
Do you keep me in your dreams, can you hear me calling  
Hear me calling

And I know you're there  
I search the stars  
To see your face lit in the sky  
I love this place and I know why  
You're always there in my mind  
But I wish that I could hear  
You're silly voice sing in my ear  
Hold you're hand and hold you near  
And if I fall you can hear me call

Makes me wonder, the spell I'm under  
Trapped inside me, will I be true  
So much to see, where will I be  
My world is changing and I change with you

No time for sentimental thoughts in my head  
Do you keep me in your dreams, can you hear me calling  
Hear me calling

And I know you're there  
I search the stars  
To see your face lit in the sky  
I love this place and I know why  
You're always there in my mind  
But I wish that I could hear  
You're silly voice sing in my ear  
Hold you're hand and hold you near  
And if I fall you can hear me call

No time for sentimental thoughts in my head  
Do you keep me in your dreams, can you hear me calling  
Hear me calling

And I know you're there  
I search the stars  
To see your face lit in the sky  
I love this place and I know why  
You're always there in my mind  
But I wish that I could hear  
You're silly voice sing in my ear  
Hold you're hand and hold you near  
And if I fall you can hear me call
