

# Never Fades Away

Delta Goodrem

I hear your voice so loud and clear  
Each time I hear the wind blow  
I can still feel you by my side  
Even when you're far away  
When you're feeling all alone  
A million miles away from home  
When there's no one there who understands you  
I do

Close your eyes and I'll be with you  
Every day you know I'll miss you  
Our love's like a song, it never fades away  
So even when I can't be near you  
Somehow I can always hear you  
Love is like a song, it never fades away  
Just never fades away

Sometimes the different paths we choose  
They make us go the wrong way  
They always lead me back to you  
And you know it won't be long  
'Cos I'm right there where you are  
Even though it may seem far  
When there's no one there who understands you  
I do

Just close your eyes and I'll be with you  
Every day you know I'll miss you  
Our love's like a song, it never fades away  
So even when I can't be near you  
Somehow I can always hear you  
Love is like a song, it never fades away  
Just never fades away

Through the distance and the sacrifice  
Love never dies  
And it goes on and on and on  
I know you hear me

Just close your eyes and I'll be with you  
Every day you know I'll miss you  
Our love's like a song, it never fades away  
So even when I can't be near you  
Somehow I can always hear you  
Love is like a song, it never fades away  
Just never fades away  
It never fades away
