

# Safe to Believe

Delta Goodrem

She found a secret, hiding behind a closed door  
No strength to believe it like a flame that can't burn anymore

A heartbreak with sadness, a fear that was hard to let go  
Then she found an angel, the love that she'd never known

So lay with me  
I've been so scared to breathe  
You make it safe to believe in all that I am  
And take my hand  
Love me for who I am  
Teach me to dream again  
It's all that I need  
You make it safe to believe

She had forgotten the beauty she lived in her dreams  
Her heart had stopped hoping, broken by what she has seen

The chance constellation, a lighthouse as bright as the sun  
Two hearts resonating, two lives now living as one

Lay with me  
I've been so scared to breathe  
You make it safe to believe in all that I am  
And take my hand  
Love me for who I am  
Teach me to dream again  
It's all that I need  
And you make it safe

The darkest times of your life  
There's a spirit that hears you're right

Lay with me  
I've been so scared to breathe  
You make it safe to believe in all that I am

Lay with me  
I've been so scared to breathe  
You make it safe to believe in all that I am  
And take my hand  
Love me for who I am  
Teach me to dream again  
It's all that I need  
You make it safe to believe

You make it safe to believe
