

# The Speed of Life

Delta Goodrem

How many times can you say that it's over  
How many ways can you say that I love you forever more  
How many times can you make love with your lover  
How many lives and many lies can we live with ourselves

How many times will you change your religion  
And how many gods do you ask for the answers that grow when you  
're sad  
What has to break before you make a decision  
Cause you never know which way to go, you just get off the bus  
and go home

God tell me the truth, how much is too many  
Give me a sign if we crossed the line  
Cause everyone else seems to know the direction  
I'm frozen and I know it  
And I'm out of breath from the speed of life  
And I'm shaking and it's freezing  
I'm scared to death of the speed of life  
The speed of life

How many dreams can you break till you're broken  
How many fights can you fight until you fall down on your knees  
How many doors can get slammed in your face until one of them o  
pens  
It's beautiful, it's incredible, it's the danger of life

God tell me the truth, how much is too many  
Give me a sign if we crossed the line  
Cause everyone else seems to know the direction  
I'm frozen and I know it  
And I'm out of breath from the speed of life  
And I'm shaking and it's freezing  
I'm scared to death of the speed of life

And I'm shaking and it's freezing  
I'm scared to death of the speed of life  
The speed of life

The speed of life
