

City of Dreams

Delta Heavy

I know we're living inside a dream
A city of make believe
But I just can't get enough
We built this road of fantasy
A place for you and me
And I just can't give it up...
And I just can't give it up...
I know we're living inside a dream
A city of make believe
But I just can't get enough
We built this road of fantasy
A place for you and me
And I just can't give it up...
And I just can't give it up...

I know we're living inside a dream
A city of make believe
But I just can't get enough
We built this world of fantasy
A place for you and me
And I just can't give it up...
And I just can't get give it up...
