

# Outlaws

Delta Rae

Baby we can be magic

Pack your bags because we leave tonight  
I've got something to show you  
Wrap your arms 'round my waist so tight  
Let that hunger control you

Our parents won't understand  
They don't know we might not last the day  
We ought to make a stand  
Holding out for another way

[Chorus:]

Don't you know that we're outlaws?  
Giving the finger to death itself  
We got no one to hide from  
We got no one to toast our health

Rules were meant to be pushed and pulled  
We were meant to be sparks of light  
Running now with the raging bulls  
Baby we can be magic tonight

Ever since I was ten years old  
You know that I could feel it  
Gasoline coursing through my soul  
Light me up like a spirit

Our friends they won't understand  
They can't feel all the lust inside our eyes  
We ought to make a stand  
Holding out for a new sunrise

[Chorus:]

Don't you know that we're outlaws?  
Giving the finger to death itself  
We got no one to hide from  
We got no one to toast our health

Rules were meant to be pushed and pulled  
We were meant to be sparks of light  
Running now with the raging bulls  
Baby we can be magic tonight  
Baby we can be magic (Oh)  
Baby we can be magic (Oh)

[Chorus:]

Don't you know that we're outlaws?  
Giving the finger to death itself  
We got no one to hide from  
We got no one to toast our health

Rules were meant to be pushed and pulled  
We were meant to be sparks of light  
Running now with the raging bulls  
Baby we can be magic tonight  
Baby we can be magic (Oh)

Baby we can be magic (Oh)  
Baby we can be magic (Oh)  
Baby we can be magic (Oh)
