

Running

Delta Spirit

Hold the light my love
hold the light my love
could you take enough?
hold the light my love

You know I'd done
and I'm doomed

With a gun against my head
gun against my head
I hold myself hostage
with a gun against my head

You know I'm done
and I'm doomed
when I come running
when I come running
to you

When I kissed her she fell dead
kissed her she fell dead
did you hear a word I said?
when I kissed her she was dead

You know I'm done
and I'm doomed
when I come running
when I come running
when I come running
to you

When I come running
when I come running
when I come running
when I come running
to you
