

This Time Could Be The Last One

Deluxe

How do you feel when you remember the first time
and it's the last time?
What can you say now time passes so fast and
there's no answers?

How did you feel when you killed that man?
When you tell that story again?
Maybe it's not easy to explain

And your air is getting thin,
your voice has another tone
and you are left there on your own.

I wish you would never had to go away,
but I know she's waiting,
you're not gonna be alone.

You are so tired and you think your slide is slow,
but you've got to stay just a little more,
you know this time could be the last one.

What do you feel when you see it for the first time
and it could be the last time?
When you thought that she would stay forever
and she's gone up now?

And your air is getting thin,
your voice has another tone
and you are left there on your own.

How did you feel when you killed that man?
When you tell that story again?
Maybe it's not easy to explain

I wish you would never had to go away,
but I know she's waiting,
you're not gonna be alone.

You are so tired and you think your slide is slow,
but you've got to stay just a little more,
you know this time could be the last one...
you know this time could be the last one...
you know this time could be the last one...
you know this time could be the last one...
