Neva listen to me (yeah)

Loving you baby  
Still I can't get enough  
When we make love it's so crazy  
Cause I'm wanting your touch  
She bounce it like  
Up and down, up and down baby  
Got me reminiscing but you can go  
Cause there's better  
I know I could do better  
And girl it's too late

She never listen, cause she never listens  
Cause she never listens now it's too late  
She never listen, cause she never listens  
Cause she never listens now it's too late  
She never listen, cause she never listens  
Cause she never listens now it's too late  
She never listen, cause she never listens  
She never listens now it's too late

Cause she likes, flashy lights, fancy cars  
She only par with superstars  
She took my heart tore it apart  
I wish I could have moved back to the start  
She nuh hesitate  
Fi tell you straight  
She nuh deal with you if you ah nuh heavyweight  
She ah meditate how fi elevate  
So to every money man a life...

She never listen, cause she never listens  
Cause she never listens now it's too late  
She never listen, cause she never listens  
Cause she never listens now it's too late  
She never listen, cause she never listens  
Cause she never listens now it's too late  
She never listen, cause she never listens  
She never listens now it's too late

Yeah  
So what it is  
Baby what it is  
I thought you were my soulmate  
You were to have my kids  
I bought this big old house for us to live  
Baby you know what you did

Now what it is  
Baby what it is  
I thought you were my soulmate  
You were to have my kids

Now I'm in this mansion where both of us should live  
Baby you don't know what you did

She never listen, cause she never listens  
Cause she never listens now it's too late  
She never listen, cause she never listens  
Cause she never listens now it's too late  
She never listen, cause she never listens  
Cause she never listens now it's too late  
She never listen, cause she never listens  
She never listens now it's too late

She never listen, cause she never listens  
Cause she never listens now it's too late  
She never listen, cause she never listens  
Cause she never listens now it's too late  
She never listen, cause she never listens  
Cause she never listens now it's too late  
She never listen, cause she never listens
