

Strangler in Paradise

Demented Are Go!

Strangler in paradise
A killer in the crowd
Strangler in paradise
This red light district is going down

He's gonna take you
Kiss and caress you
Grab your throat
And squeeze it real tight
He's gonna make you
Kiss and then bless you
Sins he'll wash away this night

Strangler in paradise
A killer in the crowd
Pimps and queens and porno screens
This red light district is going down

On these misty neon streets
Hiding in shadows
A man with no face
Waiting for the strumpet
The chosen one
Strangle embrace
Another whore gone

He's got the power
God flows through his veins
The Lord gave him a mission
To take out the bad

On these streets in pattering rain
Girls in tight plastic
Have sex with no shame
Pimps are waiting counting the cash
A punter is coming it won't be the last
