

My Love Is Like a Star

Demi Lovato

1. The space in between us starts to feel like
the world's apart like I'm going crazy
And you say it's raining in your heart
You're telling me nobody's there
To try and fly, oh but that's just crazy
Cause baby I told you I'm here for good

R: My love is like a star yeah
You can't always see me
But you know that, I'm always there
When you still unshining, take it as mine
And remember I'm always near
If you see a comet Baby I'm on it
Making my way back home
Just follow the glow yeah
It won't be long, just know that
you're not alone

2. I tried to build the walls to keep you safe when
I'm not around but as soon as I'm
away from you, you say they
come tumbling down
But it's not about the time
That we don't get to
spend together
It's about how
strong our love is
When I'm gone and
it feels like forever

R: My love is like...

*: You say that time away
makes your heart grow out
But I can stay just
to prove you wrong
Oh look at how
far we've come
Don't you know
Don't know that you're the one

R: My love is like...

You're not alone
You're not alone
You're not alone
You're not alone

R: My love is like a star yeah
You can't always see me
But you know that
I'm always there
When you still unshining
Take it as mine
And remember I'm always near
If you see a comet

Baby I'm on it
Making my way back home
Just follow the glow yeah
It won't be long, just know that
you're not alone
