## **Slumber Of Sullen Eyes**

**Demigod** 

I shall befall thee
In the sullen halls of dark oblivion
In an evintide of abysmal grief
Hybrid form of life
Hidden from the immortal
Your soul will burn through time
The dark realm dwells in no light

Dismal dreams of lives forgotten
In the visions of my slumber
They lie silent in chasms
The bleeding eyes of sorrow

The gathering of miserable beings Grievous existence underwent to the end

In blackness they mourn
The soul of sorrow now bleed in tears

I shall befall thee
In the sullen halls of dark oblivion
In an evintide of abysmal grief
Hybrid form of life
Hidden from the immortal
Your soul will burn through time
The dark realm dwells in no light

Dismal dreams of lives forgotten In the visions of my slumber They lie silent in chasms The bleeding eyes of sorrow

Frozen eyes gazing to stillness Beckoning into the dark Summoned to the vale of tears To feel the appearance of grief

Slumber of sullen eyes (repeat)
